Message from our CEO, Lisl McLachlan.

Every year, when we put this catalogue together, I am reminded that our work at Future Managers is about much more than publishing learning material.

We are part of South Africa's education journey. A journey that continues to change as the needs of students, educators, institutions and the world of work change.

For us, this is where our purpose matters most. We believe education should open doors. It should help people learn, grow, gain confidence and move towards a better future. Our role is to support that journey with relevant, high-quality learning content and tools that are practical, accessible and useful in the classroom and beyond.

At Future Managers, we remain committed to supporting learning, advancement and education in South Africa. We are proud to play our part in helping to build a brighter future for students, educators, institutions and the communities they serve.

Siyafunda Siyakhula! remains close to our hearts because it says simply what we believe: through learning, we grow.

Thank you for being part of this journey with us. Together, we continue to support education that makes a real difference.
